

**RED PLATE
(14,5 cent.)**

...UE terracotta plate of a
style. The red colour is due to the high
black, potash was generally added,
impermeable and metallic black. The fast
consisted in reserving the motifs, which
details were painted later.

At the same time, they preferred human
heroic scenes judged too violent.

Good condition. Some restoration and re
ORIGIN: Puglia in southern Italy. The
that replaced the black figure production
was in Lucania; it was formed following
century BC.

DIMENSIONS: Diameter: 37 cm / 14,57

TEST: supplied with a thermoluminescence

CULTURAL PASSPORT: supplied with
Certificate n°100734.
